Aerosols, Putties, Sanding Paste & Cleaning Paste

Refinish

**GET “PRODUCTIVE QUALITY” FROM A COMPANY YOU TRUST WITH DUPONT REFINISH ANCILLARY PRODUCTS.**

“Productive Quality” made possible through DuPont science, dependability, knowledge and continuous improvement.

### **Productive, High Quality Products for Body Shops**

Body shop customers need products that help cut cycle time and improve overall repair quality. DuPont Refinish aerosols, putties, sanding paste and cleaning paste are the answer. DuPont Refinish products deliver “Productive Quality” made possible through DuPont science, dependability, knowledge and continuous improvement.

### **Product Pricing**

DuPont Refinish aerosols, putties, sanding paste and cleaning paste are competitively priced to meet the expectations of shops that truly value productivity and quality.

### **Competition**

DuPont Refinish aerosols, putties, sanding paste and cleaning paste are all formulated and positioned to work best with ChromaSystem™. They eliminate the risks of using competitive products.

### **Environmental**

DuPont Refinish aerosols, putties, sanding paste and cleaning paste are all designed for use with most local VOC requirements. Be sure to check the local requirements before ordering. Our Customer Service Representatives can help.

**DuPont Refinish products cut cycle time and improve overall repair quality.**

**A-19301S™****DuPont™ A-19301S™ Clear Coat Blender Aerosol**

A-19301S™ Blender gives shop technicians the convenience of having a ready to use aerosol product to finish ChromaSystem™ clear coat blends. A-19301S™ has improved application and performance versus similar products. Outstanding performance, ready to use, no mixing, no clean-up... easy, fast and simple.

**Compliance\*:** NR

**A-2320S™****DuPont™ A-2320S™ Plas-Stick® Surface Cleaner**

A-2320S™ is a ready to use, unprimed plastic parts cleaner designed to remove mold release agents and other surface contaminants, and to eliminate static. A well established effective and reliable plastic cleaner. Do not use to clean ABS or Lexan.

**Compliance\*:** NR

**A-2330S™****DuPont™ A-2330S™ Plas-Stick® Adhesion Promoter**

A-2330S™ is a green-gray lightly pigmented adhesion promoter for polyolefin or non-polyolefin unprimed automotive plastics. When combined with proper surface preparation, A-2330S™ enhances the performance of ChromaSystem™ products on unprimed polyolefin or non-polyolefin plastic parts. Great for repairing small areas of bare plastic and no need to clean a spray gun!

**Compliance\*:** NR, CA

**A-3130S™****DuPont™ A-3130S™ UVA Primer-Surfacer**

Aerosol Primer-Surfacer that can be fully cured in 30 seconds. DuPont A-3130S™ is formulated for ULTRA FAST spot repairs. It can be applied directly to metal. Under low intensity UV lamps it snap dries with a very smooth surface that can be sanded immediately after cooling. And it's easier for painters as the ultra fast and full cure means no uncured primer to wipe and clean, and no waste.

**Compliance\*:** NR, CA

**A-3970S™****DuPont™ A-3970S™ Low Temp Surface Klean**

A-3970S™ is a multi-purpose aerosol surface cleaner that leaves no residue. Great for removing difficult to clean contaminants on small spots. Formulated to provide optimum working time around 70°F.

**Compliance\*:** NR

**A-3990S™****DuPont™ A-3990S™ High Temp Surface Klean**

A-3990S™ is a multi-purpose aerosol surface cleaner that leaves no residue. Great for removing difficult to clean contaminants on small spots. Formulated to provide optimum working time around 90°F.

**Compliance\*:** NR

**A-4114S™****DuPont™ A-4114S™ 1K Etch Primer - Gray**

A-4114S™ is a 1K etch primer developed to repair small cut throughs to bare metal incurred during vehicle pre-paint operations. The gray color can be easier to cover in certain colors and the aerosol packaging makes it convenient to use. Non-Chrome containing product in the same quality as A-4115S™.

**Compliance\*:** NR, CA

**A-4115S™****DuPont™ A-4115S™ Aerosol Etch Primer - Green**

A-4115S™ is a 1K aerosol etch primer developed to repair small cut throughs on bare metal incurred during vehicle pre-paint operations. Non-Chrome containing product in the same quality as A-4114S™.

**Compliance\*:** NR, CA

**A-4119S™****DuPont™ A-4119S™ Aerosol Etch Primer - Black**

A-4119S™ is a 1K aerosol etch primer developed to repair small cut throughs on bare metal incurred during vehicle pre-paint operations. This is a non-Chrome containing product with leading edge performance among 1K etch primers.

**Compliance\*:** NR, CA

**A-4220S™****DuPont™ A-4220S™ Quick Prime™ - Light Gray**

A-4220S™ QuickPrime™ - in ValueShade® #2 Light Gray is an easy to use 1K acrylic primer designed to provide good fill capacity, and good adhesion to recommended substrates. Quick to cover with the right colors, this aerosol primer is frequently used on small spots to finesse a repair.

**Compliance\*:** NR, CA

**A-4240S™****DuPont™ A-4240S™ Quick Prime™ - Gray**

A-4240S™ QuickPrime™ - ValueShade® #4 Gray is an easy to use 1K acrylic primer designed to provide good fill capacity, and good adhesion to recommended substrates. Quick to cover with the right colors, this aerosol primer is frequently used on small spots to finesse a repair.

**Compliance\*:** NR, CA

**A-4260S™****DuPont™ A-4260S™ Quick Prime™ - Dark Gray**

A-4260S™ Quick Prime™ - ValueShade® #6 is an easy to use 1K acrylic primer designed to provide good fill capacity, and good adhesion to recommended substrates. Quick to cover with the right colors, this aerosol primer is intended for small areas and spot repairs that require limited spot prime applications.

**Compliance\*:** NR, CA

**A-5099S™****DuPont™ A-5099S™ Satin Black**

A-5099S™ Satin Black is a 1K finish for automotive trim. It is the correct sheen of semi-gloss black to match most OEM bumpers and moldings. A-5099S™ is a fast drying general purpose semi-gloss coating ideal for detailing.

**Compliance\*:** NR, CA

**A-7480S™****DuPont™ A-7480S™ Acrylic Trim & Jamb Clear**

A-7480S™ is an easy to use, ready to spray coating designed for cosmetic repairs. Described by the trade as a high build acrylic clear, it has outstanding application and appearance for a 1K aerosol.

**Compliance\*:** NR

**A-7481S™****DuPont™ A-7481S™ Acrylic Trim & Jamb Clear for California**

A-7481S™ is an easy to use, ready to spray coating designed for cosmetic repairs. Similar to A-7480S™, it has outstanding application and appearance for a 1K aerosol and it is compliant in all regions of California.

**Compliance\*:** NR, CA

**2310S™**

**DuPont™ 2310S™ Plas-Stick® Cleaning Paste**

2310S™ Plas-Stick® Cleaning Paste is a preparation paste that greatly simplifies repairing unprimed plastic parts. It eliminates the need to pre-wipe new plastic parts with plastic cleaning solvent reducing the number steps before paint. The result is increased productivity and a simpler process.

**Compliance\*: NR, CA**

**2311S™**

**DuPont™ 2311S™ Sanding Paste**

2311S™ Sanding Paste was designed as an effective scuffing paste with a residue that is easily cleaned with water to help eliminate defects in the finish. Product attributes include the right level abrasive for preparing blends, yellow color that lets you follow your work safer around chrome trim and plastic lenses, easy to remove residue, excellent results (even with repairs on light metallic colors) and ultra-low VOC.

**Compliance\*: NR, CA**

**2250S™**

**DuPont 2250S™ Premium High-Flow Putty**

2250S™ Premium High-Flow Putty is formulated to be used as a finishing putty to fill pin holes in body filler and it can be used in finessing other physical surface defects. It dries quickly and is easy to sand. It provides an excellent surface for primer. 2250S™ is a premium high-flow putty that helps produce an invisible repair. Product comes complete with 2271S™ hardener.

**Compliance\*: NA**

**2270S™**

**DuPont 2270S™ Flexible Putty**

2270S™ Flexible Putty is formulated for finessing surface defects over plastic parts. It is specifically designed to resist cracking under extreme conditions. It can also be used as a high-flow putty over rigid parts. Product comes complete with 2271S™ hardener.

**Compliance\*: NA**

**2290S™**

**DuPont 2290S™ Final-Fil™**

2290S™ Final-Fil™ is a full body 2 part polyester finishing putty. It is designed to fill imperfections over properly prepared surfaces such as steel, fiberglass, SMC, body filler, epoxy primers and finishes. Excellent for avoiding body filler staining. Product comes complete with 2291S™ hardener.
